

**MONDAY 15th APRIL**

**Access to fisheries and the right to fish**

Session Chair: Jamie Workman

Author	Title
Ragnar Arnason	ITQ prices: What do they reveal?
Ragnar Arnason	Economically sensible caps on ITQ-holdings
Heather Stewart	The Impact of Economics in UK Fisheries Policy, 1945-1995: Ownership, access and the right to fish
John Anderson	By accident or by design? FQAs and the advent of UK fish quota trading
Fabienne Daures	MPAs for fishery management? Monitoring and assessment of commercial fisheries without access regulation to the protected area: the case study of the Iroise Sea (France)

**SPECIAL SESSION: Impacts of the removal of the fuel tax exemptions**

Session Chair: Roger Martini

Author	Title
Roger Martini	OECD work on FTC measurement and policy
Miguel Pena Castello	Impact of the removal of the fuel tax exemption The EU perspective
Staffan Waldo	Fuel tax concessions in Nordic fisheries
Q&A & Round-table discussion on future data and modelling	

**POSTER SESSION: Monday Evening Reception**

Author	Title
Kees Taal	The Dutch Approach: Sustainable and economic viable fisheries
Prof Ikerne del Valle Erkiaga	An economic perspective about fishermen Guilds in the Basque Country and Spain
Prof. Robert B. Fisher	The Fish4Knowledge Project: Massive Live, Marine Fish Observation and Analysis
Jamie Workman	A turning tide for North America's Fisheries
Sarah Gall	Evaluating the Impacts of Integrating Fisheries and Conservation Management
Natacha Carvalho	A GIS based tool for identifying fisheries dependent local communities in Europe

## TUESDAY 16th APRIL

### Access to fisheries and the right to fish

Author	Title
Johan Blomquist	Individual non-transferable catch quotas in the Swedish Baltic Sea cod fishery – effects on price level
Keith Criddle	Evolution of Property Rights in the Eastern Bering Sea Pollock Fishery
Jarno Virtanen	Impact Analysis of Implementing a ITQ System in the Swedish Pelagic Fisheries

### Modelling: Session Chair: Thomas Thøgersen

Author	Title
Fabienne Daures	Modelling the fishing costs of French commercial vessels in the Bay of Biscay
Zafer Kanik	Implementation of the maximum sustainable yield under an age-structured model
Diwakar Poudel	Stochastic optimization of multispecies fisheries: the case of cod, Capelin and herring'
Frank Jensen	On avoidance activities in fishery enforcement models
Girardin Raphael	Effort allocation in a demersal mixed fishery competing for space and resources with other users of the marine space

### Seafood Marketing

#### Session Chair: Jeo Lee

Author	Title
Megan Bailey	European demand and the cost of certification: The case of Maldivian pole and line tuna
Lucas Sterenn	Are consumers ready to pay more for eco-labelled seafood products? An empirical study for France

### Seafood Marketing session continued on Wednesday

### SPECIAL SESSION: Panel discussion

#### Designing Catch Shares to Rejuvenate Fisheries (EDF)

<b>Major Topics:</b>
Incentives in Fisheries Management, Social Role of Fisheries, Discards and Waste.
<b>Panel:</b>
Erik Lindebo, European Parliament,
Pam Ruiters, Environmental Defense Fund
Britt Groosman, Environmental Defense Fund,

**Data collection and analysis in fisheries**

**Session Chair: Jörg Berkenhagen**

Author	Title
Jeo Lee	Knowing Demersal, Knowing Pelagic: Risk Contagion in the Landing and Price of UK Commercial Fish Species
Ruth Beatriz Mezzalira Pincinato	Seafood market in Southeast Brazil: a general analysis
Ikerne del Valle Erkiaga	Vertical integration and price transmission: in the Spanish fish market
Jörg Berkenhagen	Disaggregation of annual variable cost data of fishing
Ikerne del Valle Erkiaga	Estimating the capital value of fishing fleets: the perpetual inventory method approach
Sezgin Tunca	Examination of data collection methods for sustainable recreational fisheries
Hazel Curtis	Special film screening: The Business of Fishing
Alyson Little	Are real-time closures affecting the decision-making of Scottish North Sea demersal fishers?
Anne Margaret Stewart	The practicalities of economic data collection in the UK.

**SPECIAL SESSION: Industry and economists discussion on economic data for fisheries management, collection and use of data**

**Session Chair: John Anderson**

**Investment, incentives and subsidies in fisheries management**

**Session Chair: Hans van Oostenbrugge**

Author	Title
Hazel Curtis	Vessel owners' stay or exit decisions in response to a vessel buy-back scheme
Christian Tritten	What effect does scrapping have on user fleet number, capacity and power
Kees Taal	The Dutch Approach: Towards sustainable and economic viable fisheries
Myriam Robert	European fishing subsidies allocation and public choices
Knut Heen	Conflicting Goals in Fisheries Management - A study of the Norwegian Cod Fisheries
Lars Gårn Hansen	Regulating Renewable Resources under Uncertainty

EAFE 2013 - Edinburgh

**Special Session: SOCIOEC - Socio-economic assessment of Management Measures of the new Common Fisheries Policy (CFP) First results and upcoming research. Session Chair: Ralf Doering. Time Moderator: Gesine Behrens**

Author	Title
Ralf Doering	Socio-economic effects of management measures of the future CFP – Overview on this European FP 7 project.
Leyre Goti	Clarifying the overarching principles of the CFP – First results of SOCIOEC
TBC	Methodological background of analyzing the incentive structures of fisheries management measures (preliminary)
