

AZTI-Tecnalia

FOOD AND MARINE RESEARCH

WE GENERATE VALUE FOR SOCIETY
WE BRING THE FUTURE CLOSER
TURNING IDEAS INTO BUSINESS

Marine Research

- We provide the **scientific knowledge, innovation and technological development** needed to carry out the **integrated management of the oceans, the coasts and their resources and services.**
- We do research to achieve **responsible fishing activity** carried out by an **economically competitive fleet.**

Seven areas of research:

- Integral coastal management
- Operational oceanography
- Responsible and competitive fishery management
- Sustainable marine technologies
- Ecosystems and climate change
- Aquaculture
- Marine biotechnologies

Activities in the oceans

ENERGY PRODUCTION:
- Renewable energy (bio, wind, wave and tidal)

DREDGING AND OTHER WORKS

TRANSPORT

FOODSTUFFS:
- Fishery;
- Aquaculture;
- Biofuels

LEISURE:
- Sports fishing;
- Diving;
- Surfing
